

Practical no. 1

Name :- Danish Altaf Solkar

Enrolment no. :-24111590805

Class :- CO3K – B

Subject :- DMS

Aim:- Install the provided database software

Install SQLplus on Windows

Follow the below steps to install SQLPlus on windows:

Step 1: First browse to this [link](#).

Step 2: Then we have to click on the download button on the right side.

Step 3: Then on the next page you will find the Start Download button. There you have to click.

Oracle Database Express Edition 18.4.0.0.0 (18c)

Start Download

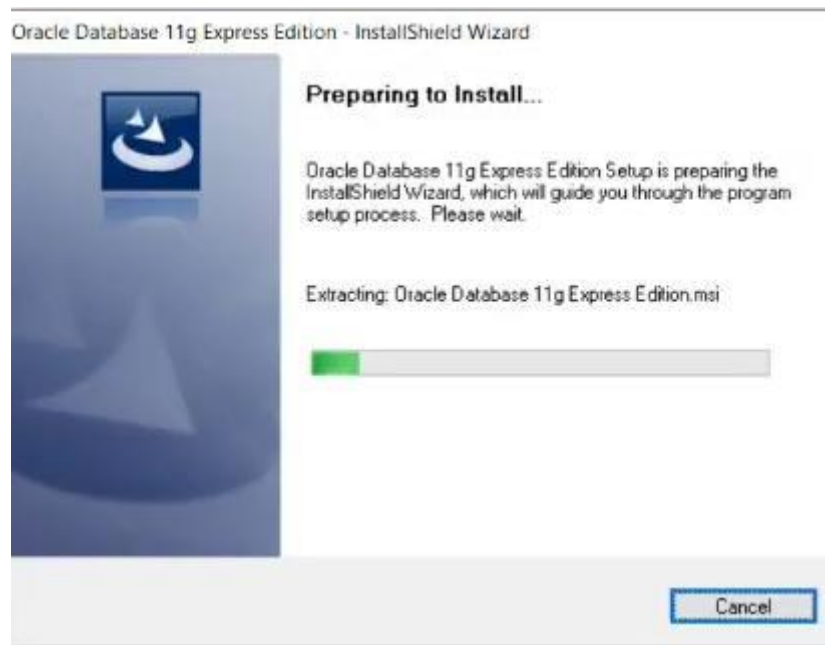

Security Status

To keep our website clean and safe please [report](#) any issues regarding this download

Step 4: Then in the downloaded zip file there will be a setup.exe file. We have to click & run it.

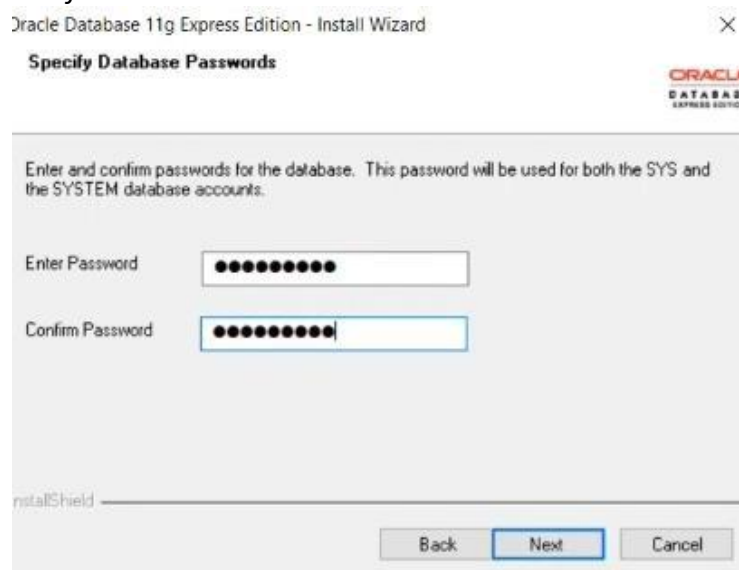

Step 5: Then the installation will start.

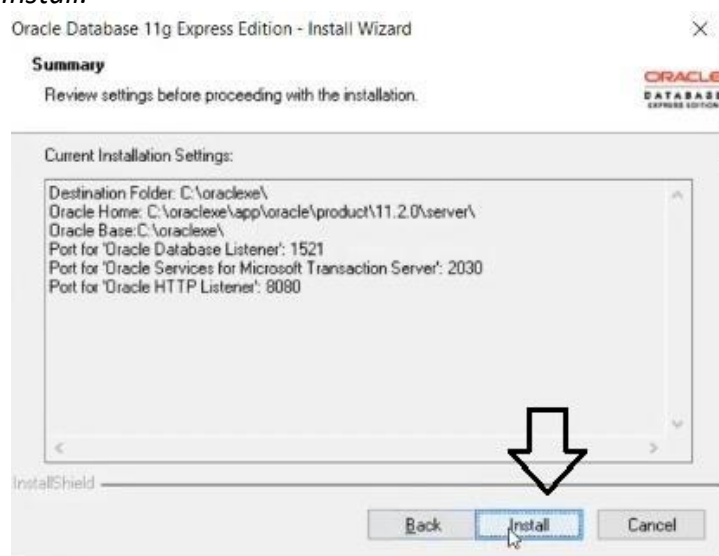

Step 6: Then you have to accept terms & click on Next

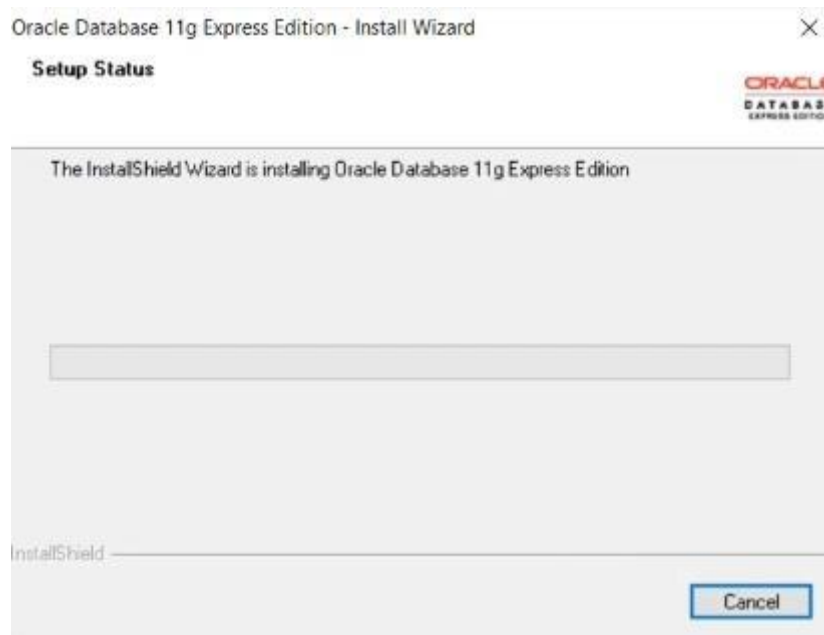

Step 7: Then you have to enter a password & confirm it. You have to remember the password for future references.

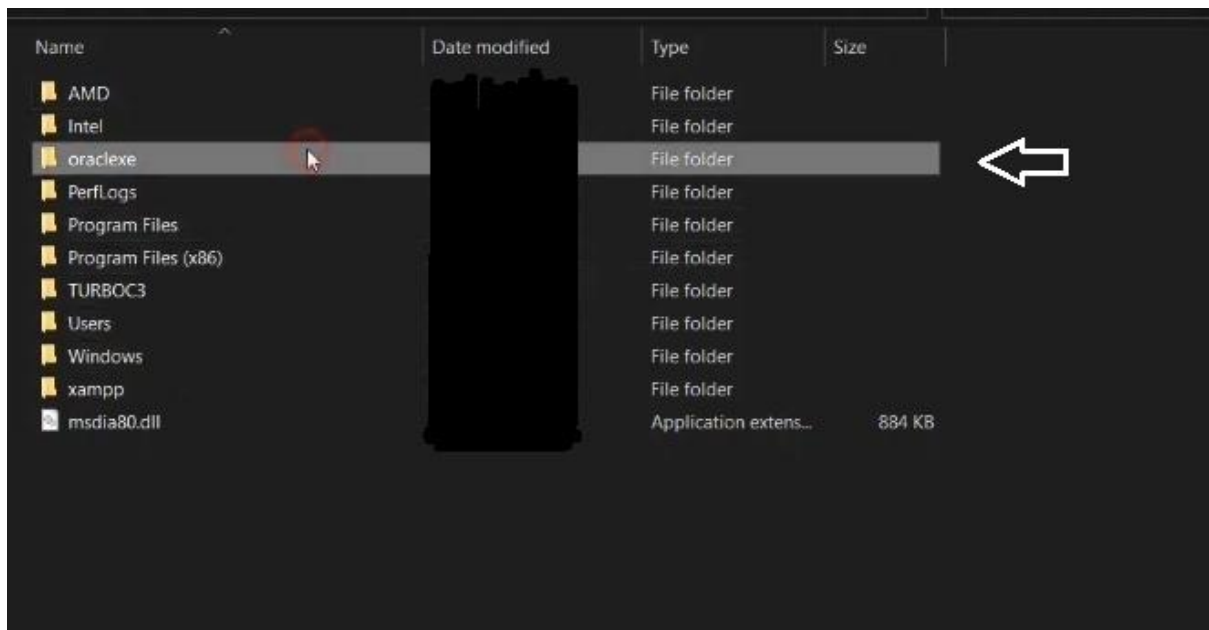

Step 8: Then click Install.

Step 9: Installation will start & it may take some time.

Step 10: After installation, you will find oraclexe folder in the C drive.

Step 11: You have to enter that folder. Then bin folder there you will find sqlplus exe file. So, your installation is successfully completed.

Local Disk (C:) > oraclexe > app > oracle > product > 11.2.0 > server > bin

Search bin
